CATIA
FUNDAMENTAL

TIME 9.00 AM – 5.00 PM
VENUE DREAMEDGE, CYBERJAYA
CODE CA20

OVERVIEW

CATIA Fundamental focuses on fundamental topics in the most commonly used workbenches including Sketcher, Part Design, Assembly Design, Wireframe and Surface Design and Drating. This course focuses on solid modelling in CATIA V5 and also introduction to wireframe and surface modelling.

The training includes tutorials (participant will be guided by instructor) and exercises (self-training) for every chapter so that participant will have better understanding about the topic. The comprehensive design project enables participant to practice new skills by creating realistic part, assemblies and drawings. After completing the course, participant will be well prepared to work effecttively on product design projects using CATIA software.

TARGET

- Design engineer
- Tooling engineer
- Manufacturing engineer
- Others needing to perform wireframe & surface design work in CATIA software

OBJECTIVE

- To introduce CATIA environment.
- To design the product by using CATIA software.
- To sketch 2D drawing.
- To design solid modelling.
- To design surface modelling.

LEARNING OUTCOME

At the end of the training, participant will be able to :

- Familiarise with CATIA function for solid models, detail drawings and product assemblies.

- Learn the flexibility of solid modelling and assembly tool as it can be applied in the real world of product development collaboration.

COURSE CONTENT

- Introduction to CATIA User Interface
- Sketcher
- Part Design
- Wireframe & Surface Design
- Assembly Design
- Generative Drating

REGISTER NOW!
*Closing date is 1 week before training date

NORMAL PRICE
RM 2900 Per pax

EARLY BIRD PRICE
RM 2550 Per pax
*2 weeks before closing date

GROUP PRICE
RM 2400 Per pax
*min three (3) pax

METHODOLOGY

- Training material : English language
- Lecture : Malay and/or English language
- Software demonstration
- Activities
- Q & A
